## COMPANY QUALITY POLICY

Atlas Ball & Bearing Co. Ltd. is an independent company, incorporated in 1977 and specialises in the stock holding and distribution of precision balls, cylindrical and roller bearings in a wide variety of materials, to a multitude of industries.

**The company's aim is to maintain and improve our position as one of the leading suppliers of rolling element (ball and rollers) to industry.**

**It is the policy of the company to provide products and services that fully and consistently meet, the agreed requirements of its customers and to ensure that they comply with defined standards and are fit for purpose.**

The company is committed to implementing, maintaining and continually improving a BS:EN:ISO 9001:2008 accredited quality management system. The scope of the quality management system is:

**Stockist and Distributor of Precision Balls in Steel, Non Ferrous and Plastic materials; of cylindrical and needle rollers and of bearings.**

Company activities do not include the design and development, or manufacture of product, therefore the following clauses are excluded from the companies accredited system.

7.3 Design and Development

7.5.2 Validation of processes for production and service provision

7.2.1a, 7.5.1f Unless specifically agreed, the company does not carry out any post delivery activities.
